

CitiBlocs – Back to School

CitiBlocs are High Quality Building Blocks unlike any other! Crafted from Grade A New Zealand Radiata Pine, each block is engineered and precision cut for new generations of building fun from age old proportions. Citiblocs distinctive design enables Building without Borders – no complicated instructions and no missing pieces. Guaranteed success and pleasure for creative construction, innovation and design.

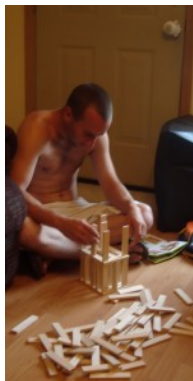

Building with Citiblocs is all about making connections. Connections to ourselves and to the world around us. It is about learning naturally. With Citiblocs children can create the fantastic worlds from their imaginations or from the environment that surrounds them. They can discover the principles of math and science that allows bridges to span great distances and super-towers to reach the sky. Children can create fun-filled games and works of art that are limited only by their imagination...with [CitiBlocs](#) the possibilities are endless...

With [CitiBlocs](#) your kids can let their imagination fly!

They can build amazing structures; Paint them; and just let their imaginations soar from all the things they can create & show off to their friends and family.

My kids had an absolute ball with this! They would get so far with building and then it would fall down when they did the wrong move!

AND...if you want to keep your hubby occupied trying to outdo your kids, this is perfect! lol
