CitiBlocs wins Oppenheim Gold Award!

With so many battery-operated toys available nowadays that zap creativity, we tend to forget about the basic essentials that kids need in their toy collection. My children have been blessed abundantly with toys of all kinds, but the ones that stand the test of time are the ones they keep going back to. One of those timeless toys is their big collection of blocks. If your child doesn't have blocks in his or her playroom or toy closet, then I urge you to stop what you are doing NOW and check out [CitiBlocs!](#)

From the website: *"CitiBlocs are High Quality Building Blocks unlike any other! Crafted from Grade A New Zealand Radiata Pine, each block is engineered and precision cut for new generations of building fun from age old proportions. Citiblocs distinctive design enables Building without Borders – no complicated instructions and no missing pieces. Guaranteed success and pleasure for creative construction, innovation and design."*

The secret behind Citiblocs is the precision cut on each block making them the exact size and shape. All you need to have on hand is a flat surface and imagination! There is a kit to [fit every playroom](#), and prices to fit every budget. Citiblocs are not your standard building block. Since their debut earlier this year, Citiblocks has already won quite a few awards for the innovative design and sturdy construction. Stephanie Oppenheim of the Oppenheim Toy Portfolio showcased award-winning educational toys. CitiBlocs, which recently won an Oppenheim Gold Award, on the TODAY show. During the segment, Oppenheim noted "CitiBlocs are my new favorite addictive toy."

With Christmas right around the corner, I urge you to make [Citiblocs](#) a part of your child's toy collection!
