

The Toy Man®

"BEST OF 2009"  
AWARD

There are always lists of the best products every year with Dr. Toy, Creative Child, and iParenting award programs, just to name a few. These award programs are great to use for your holiday season buying plans.

***What makes our list so special?...***

The Toy Man® Product Guide has the most in-depth and lengthy product evaluations in the industry. Out of 546 products inducted, these products were selected by *independent* qualified industry experts, for inclusion in The Toy Man® Product Guide - "Best of 2009".

*ef*™ | "editor's favorite"™

The "*editor's favorite*™", *ef*™ notation provides me, as the chief **editor** of The Toy Man® Product Guide™, an opportunity to provide **recognition** of the products that are my own **favorites**. My judgment is based primarily yet not entirely upon the following factors:

- Functionality
- Educational Value
- Contribution to Skill Development
- Marketability
- Visual Appeal
- FunFactor™ (If applicable)

The products that have received the "*ef*™" notation are products which I feel are an invaluable **investment** and/or provide a substantial **contribution** to positive skill **growth** and **productivity**. Most important of all are the products which contribute to **education**. Education is the **foundation** of **success** and has a long term **impact** in the lives of everyone. \*

CitiBlocs *ef*™

**Induction Certificate Number:** 74020090817-353

CitiBlocs raise the bar when it comes to quality and greenBusiness™. They are precision cut blocks of wood which are 100% ChildSafe™, green, crafted from renewable pine forests in Vietnam and provide an outstanding skill development medium. From pre-school to elementary school and even architecture professionals, CitiBlocs are an ideal educational toy, which is so simple in design yet is limited only by the imagination.

Participating in our **eco-Recognition™ Project** to encourage **greenBusiness™**
