

We are so happy to bring this Gift Guide for kids to you this year. We have hand selected only the finest products made from conscious companies with the highest standards in toy safety. All of these products are eco-friendly, non-toxic, green, or a safe alternative to other similar products readily available at big box stores.

We were looking for toys and games that enliven our children's imaginations, that bring about a feeling of magical play, AND that are healthy! Santa would be proud to deliver ANY of these gifts and all gifts fit in Santa's budget too. All gifts are under \$100, and we even have a great coupon code from Maukilo too! Enjoy!

We hope this list help Grandparents, Aunties, Uncles and ALL caregivers in finding those perfect gifts EVERYONE loves to see under the tree this year. Thanks for sharing our Gift Guide with all those you love and cherish!

Gifts for Children (Age 3 and up)

Wooden Building Block Set by CitiBlocs

Why We Love It:

Inspires imagination! Wooden pieces stack and fit together so wonderfully to bring on hours of creative fun.

Why It's a Safe Alternative:

Made from New Zealand Radiata Pine in renewable forests, the wood is carefully cut to provide safe, quality blocks that are durable and well designed. Manufactured in Vietnam.

Cost

\$35.21 for a set of 200
