

# Natural Mommie

Turning mummies from *Eco-Weak* to *Eco-Chic* one fabulous find at a time!

## CITIBLOCS

Here's a product you'll have to add to your Christmas list! [CitiBlocs](#) is the new favorite toy in this house!! This product is eco-friendly, safe, non toxic, made from renewable forests and provides years of imaginative and creative play for your children!

[CitiBlocs](#) are different from other block sets you've come across. These blocks are cut with precision and each is the exact same size - honestly! I dare you to try and find the tiniest of gaps because you won't! CitiBlocs Building requires **no glue, no snaps, no connectors and no magnets: just gravity, balance and imagination.** Their specific size and shape and weight allows building that is simply not possible with other building toys. CitiBlocs has won 12 awards from Dr. Toy and iParenting Media just to name a few!

For review, we received the [100 piece set](#) to play with and test out! I don't know who enjoyed CitiBlocs more: my husband or my son! This truly is an open ended product suitable for any age!! I really like that every set is compatible..so if you purchase a 52 piece set, you can always expand later to grow your collection. [Sets include 52, 100, 300, 500, 800 and 1000!](#)

Each block measures 1" x 4 1/2" x 1/4" so since they are narrow, they're a little difficult for toddler to use since their hands aren't as steady. CitiBlocs are actually for ages 3 and up so right now Aidan enjoys watching us build tall towers and then he's the demolition man after we're done! Pictured on the left is a 4 foot tower that we built. We could have kept going but the demo man showed up and our fun was over!! I love how much you have to think to come up with designs. Since they don't interlock or snap together, there's no getting away from using your imagination! **This is a great toy that's affordable, fun, eco-friendly and non toxic.**

CitiBlocs start at just \$15 for the 52 piece set and go up to \$350 for the Collector's 1000 piece set.

CitiBlocs is giving away a set to one lucky US reader!

I would Love to have the Citiblocs 54 Piece Color Wooden Building Bloc Set (CTB54BT) Blue & Turquoise. I would be donating this to the elementary school I work at. The preschoolers would love these. Or I could put in in our accelerated reading store.
